

Why I need to Join Deepthought and what I
Inspired to change.

What I understand about DT's

Deepthought is all about changing/expanding companies, educational systems by applying methodologies like Scientific thinking.

This helps different organisations.

This is a AI platforms using tools. PDQms.

DT care about people think deeply and systems execution.

DT need learners, not shortcut takers.

This look for risk-takers not safe game.

What changed my ~~young~~ thinking

Earlier I focused on completing tasks in time but now I understood importance of systems and team coordination.

I realized learning is more important than marks.

I want be risk taker.

I want to learn more and improve mindset.

Why I want to join

I want to improve myself

I want real-world learning.

I work in challenging environment

I want to develop execution & leadership skills

I want to me grow both personally & professionally.

I want to improve my thinking ability, discipline
& problem-solving skills.

This process made me who I am and what my
thoughts are and helped me understand that
growth comes from effort, curiosity to
improve continuously.
